

Process flow charts for the accreditation of new medical education programs in Canada

Based on CACMS Rules of Procedure
approved January 2022

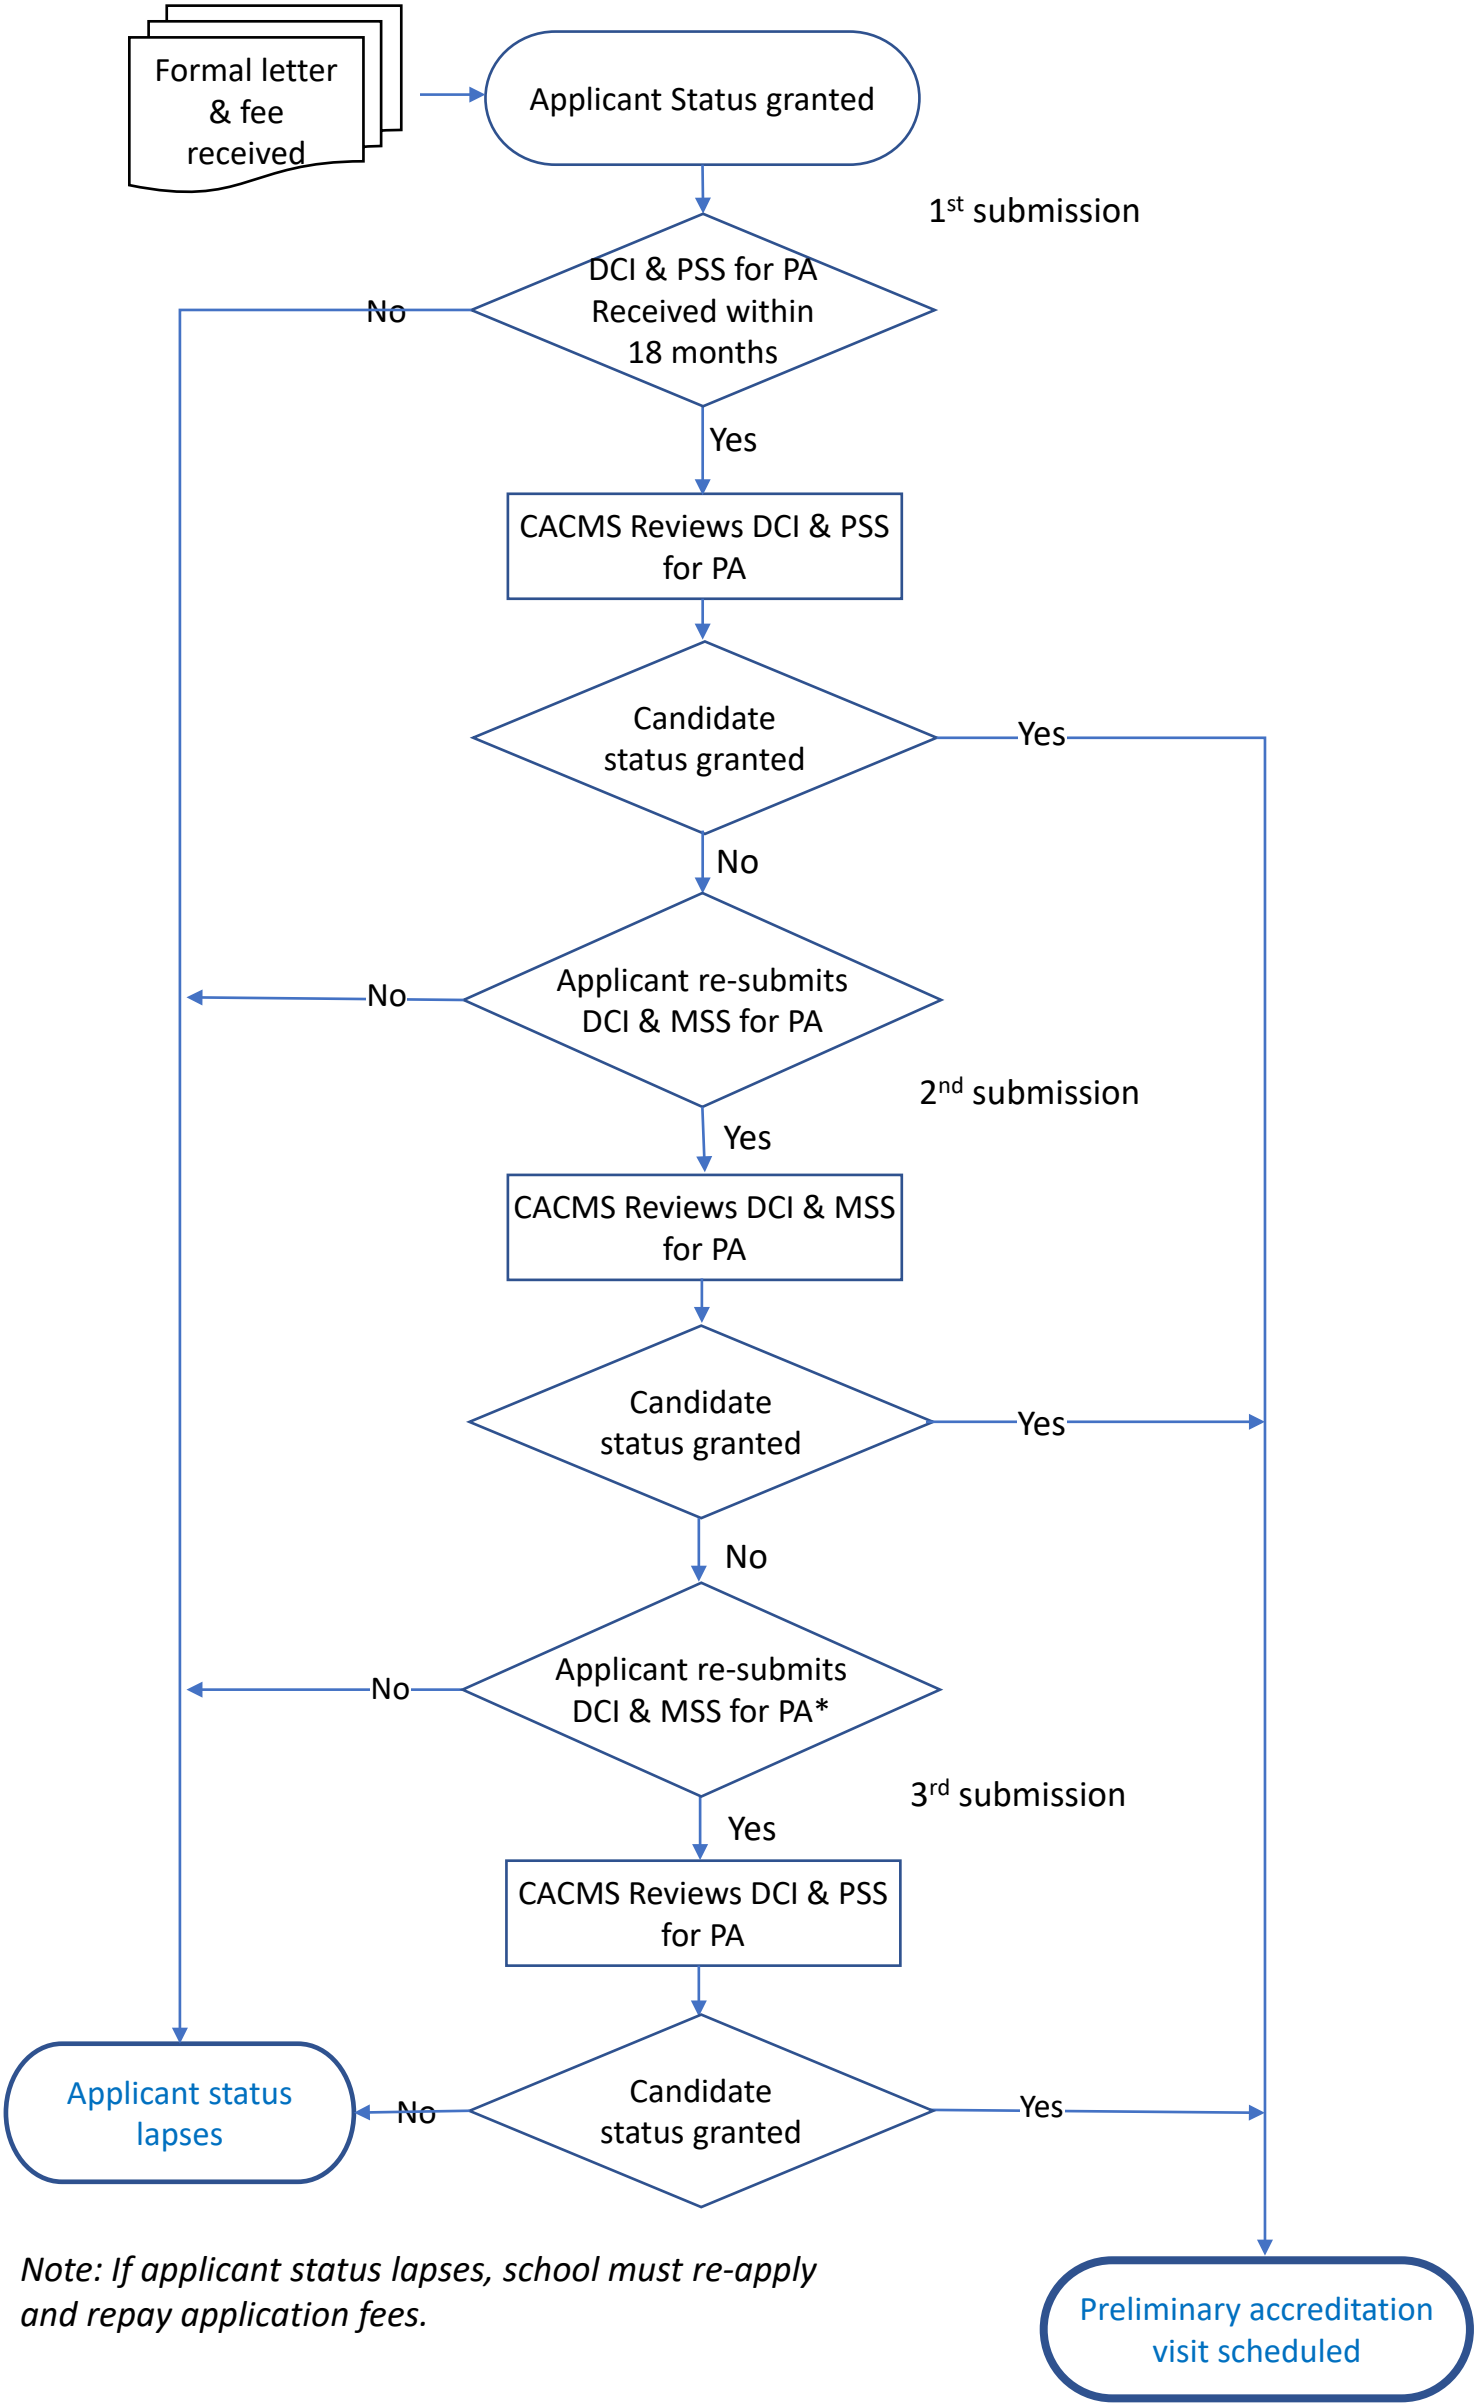

16 February 2022

General overview of new school accreditation process

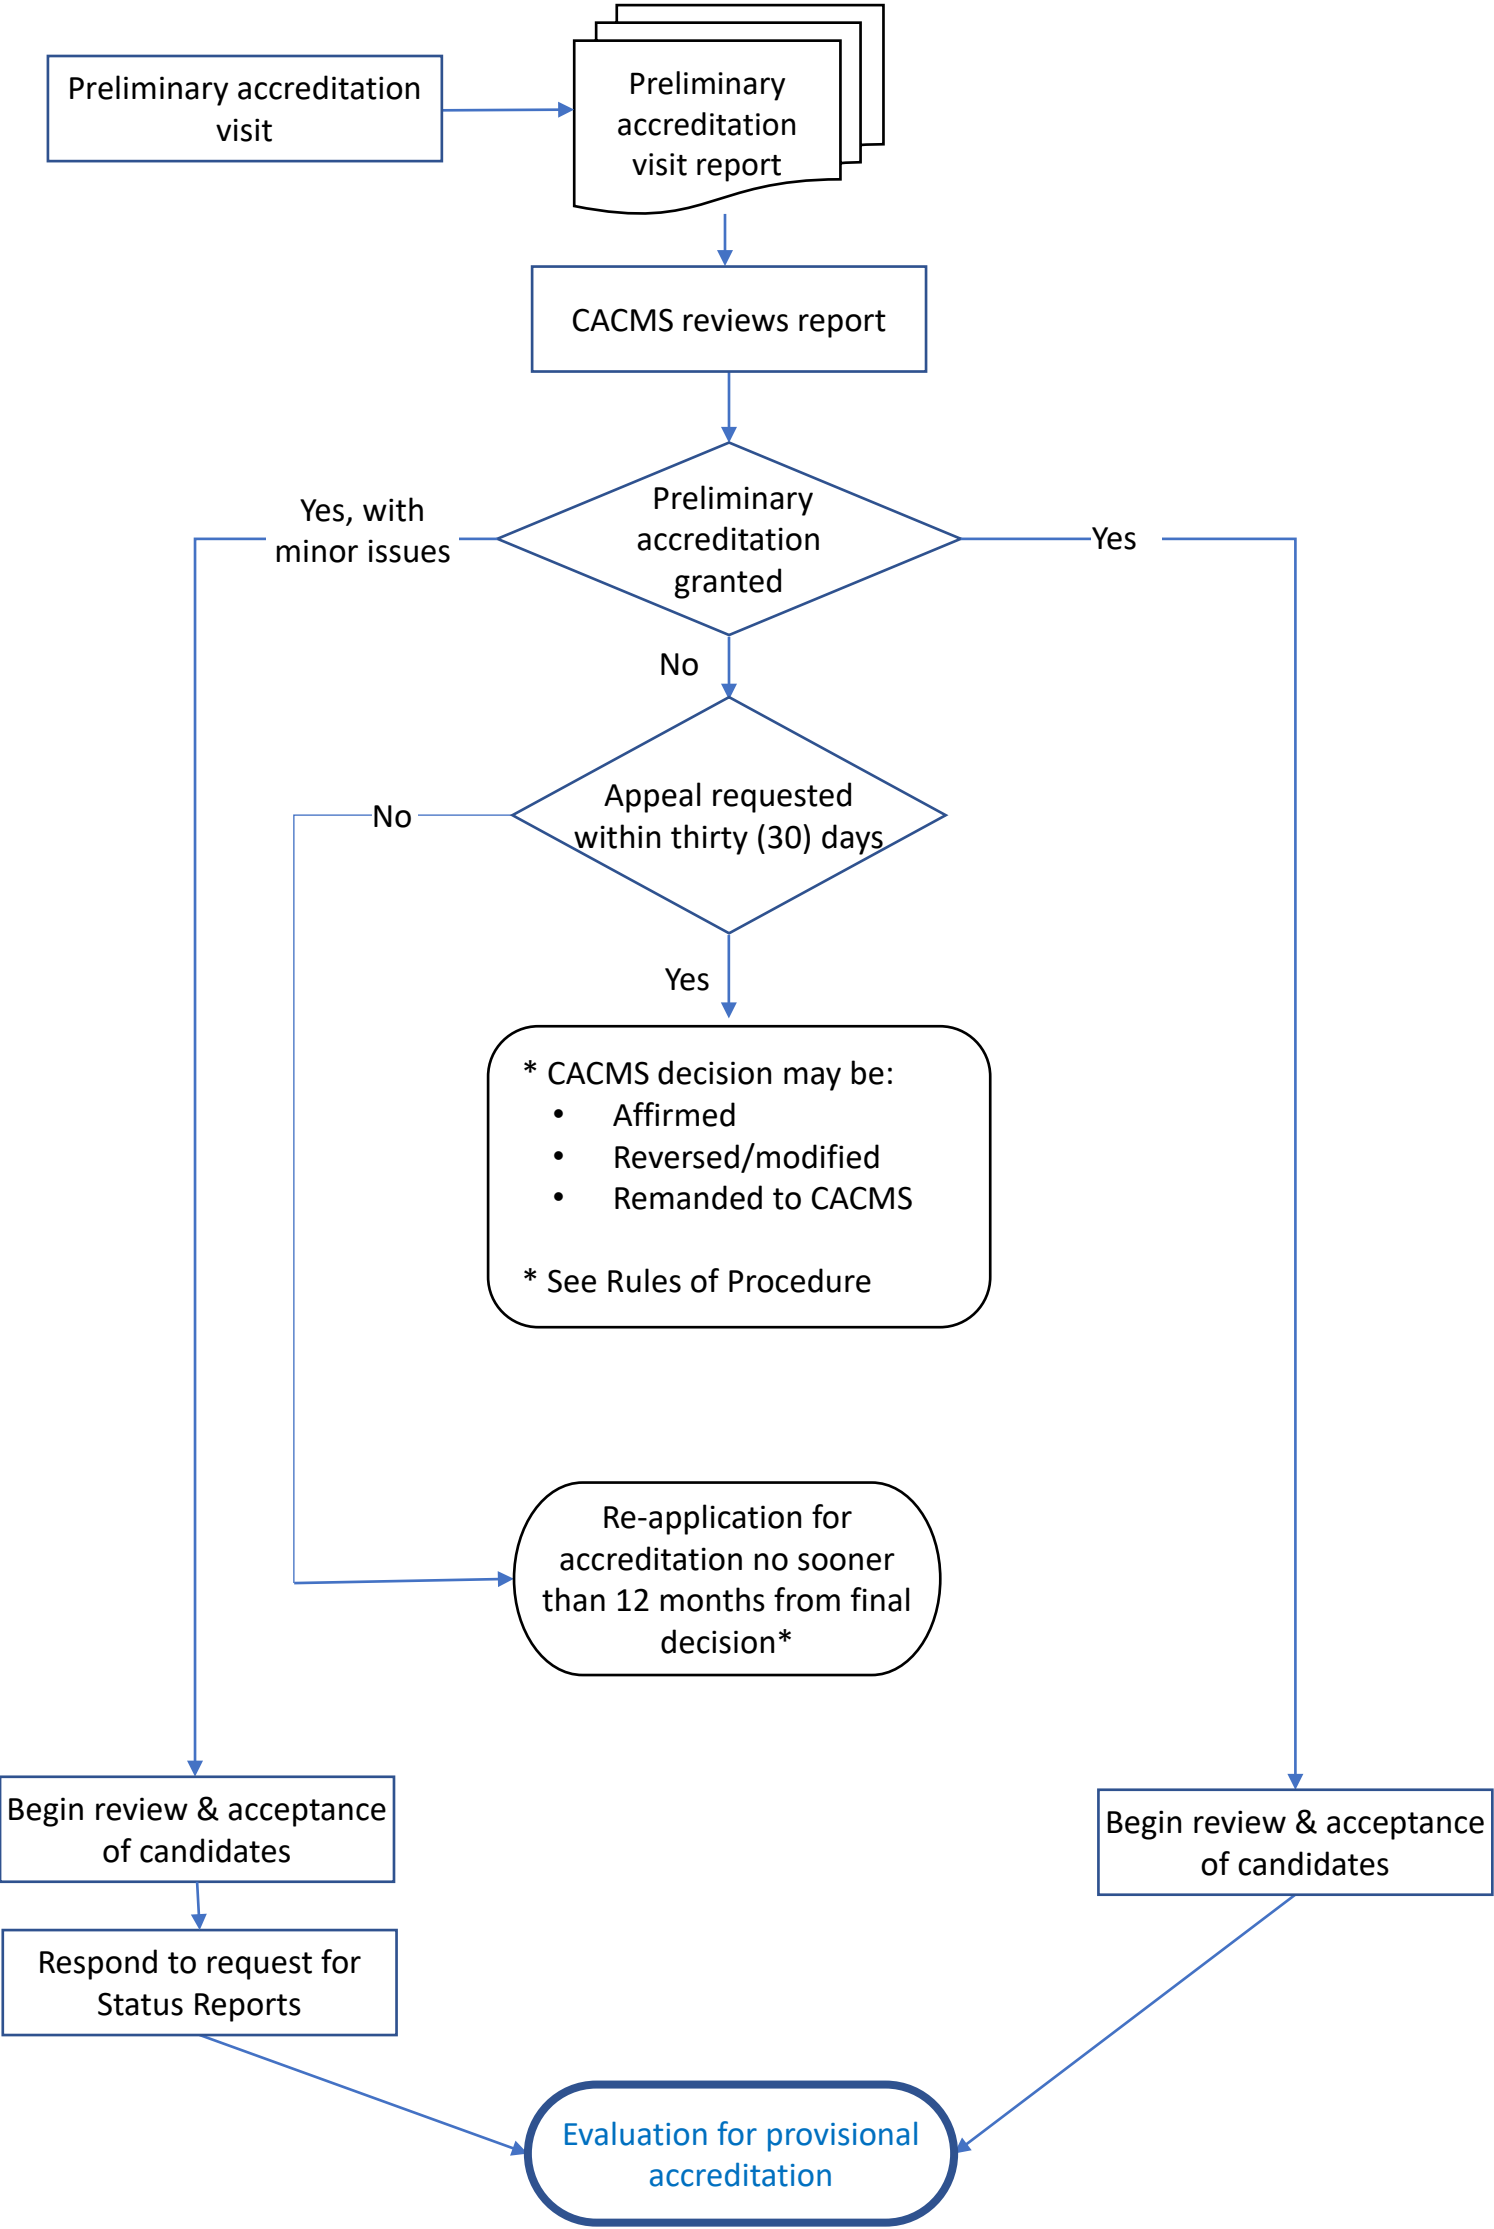

*DCI = Data Collection Instrument for Preliminary Accreditation; MSS = Medical School Self-Study for Preliminary Accreditation; ISA = Independent Student Analysis

Applicant > Candidate Status Process

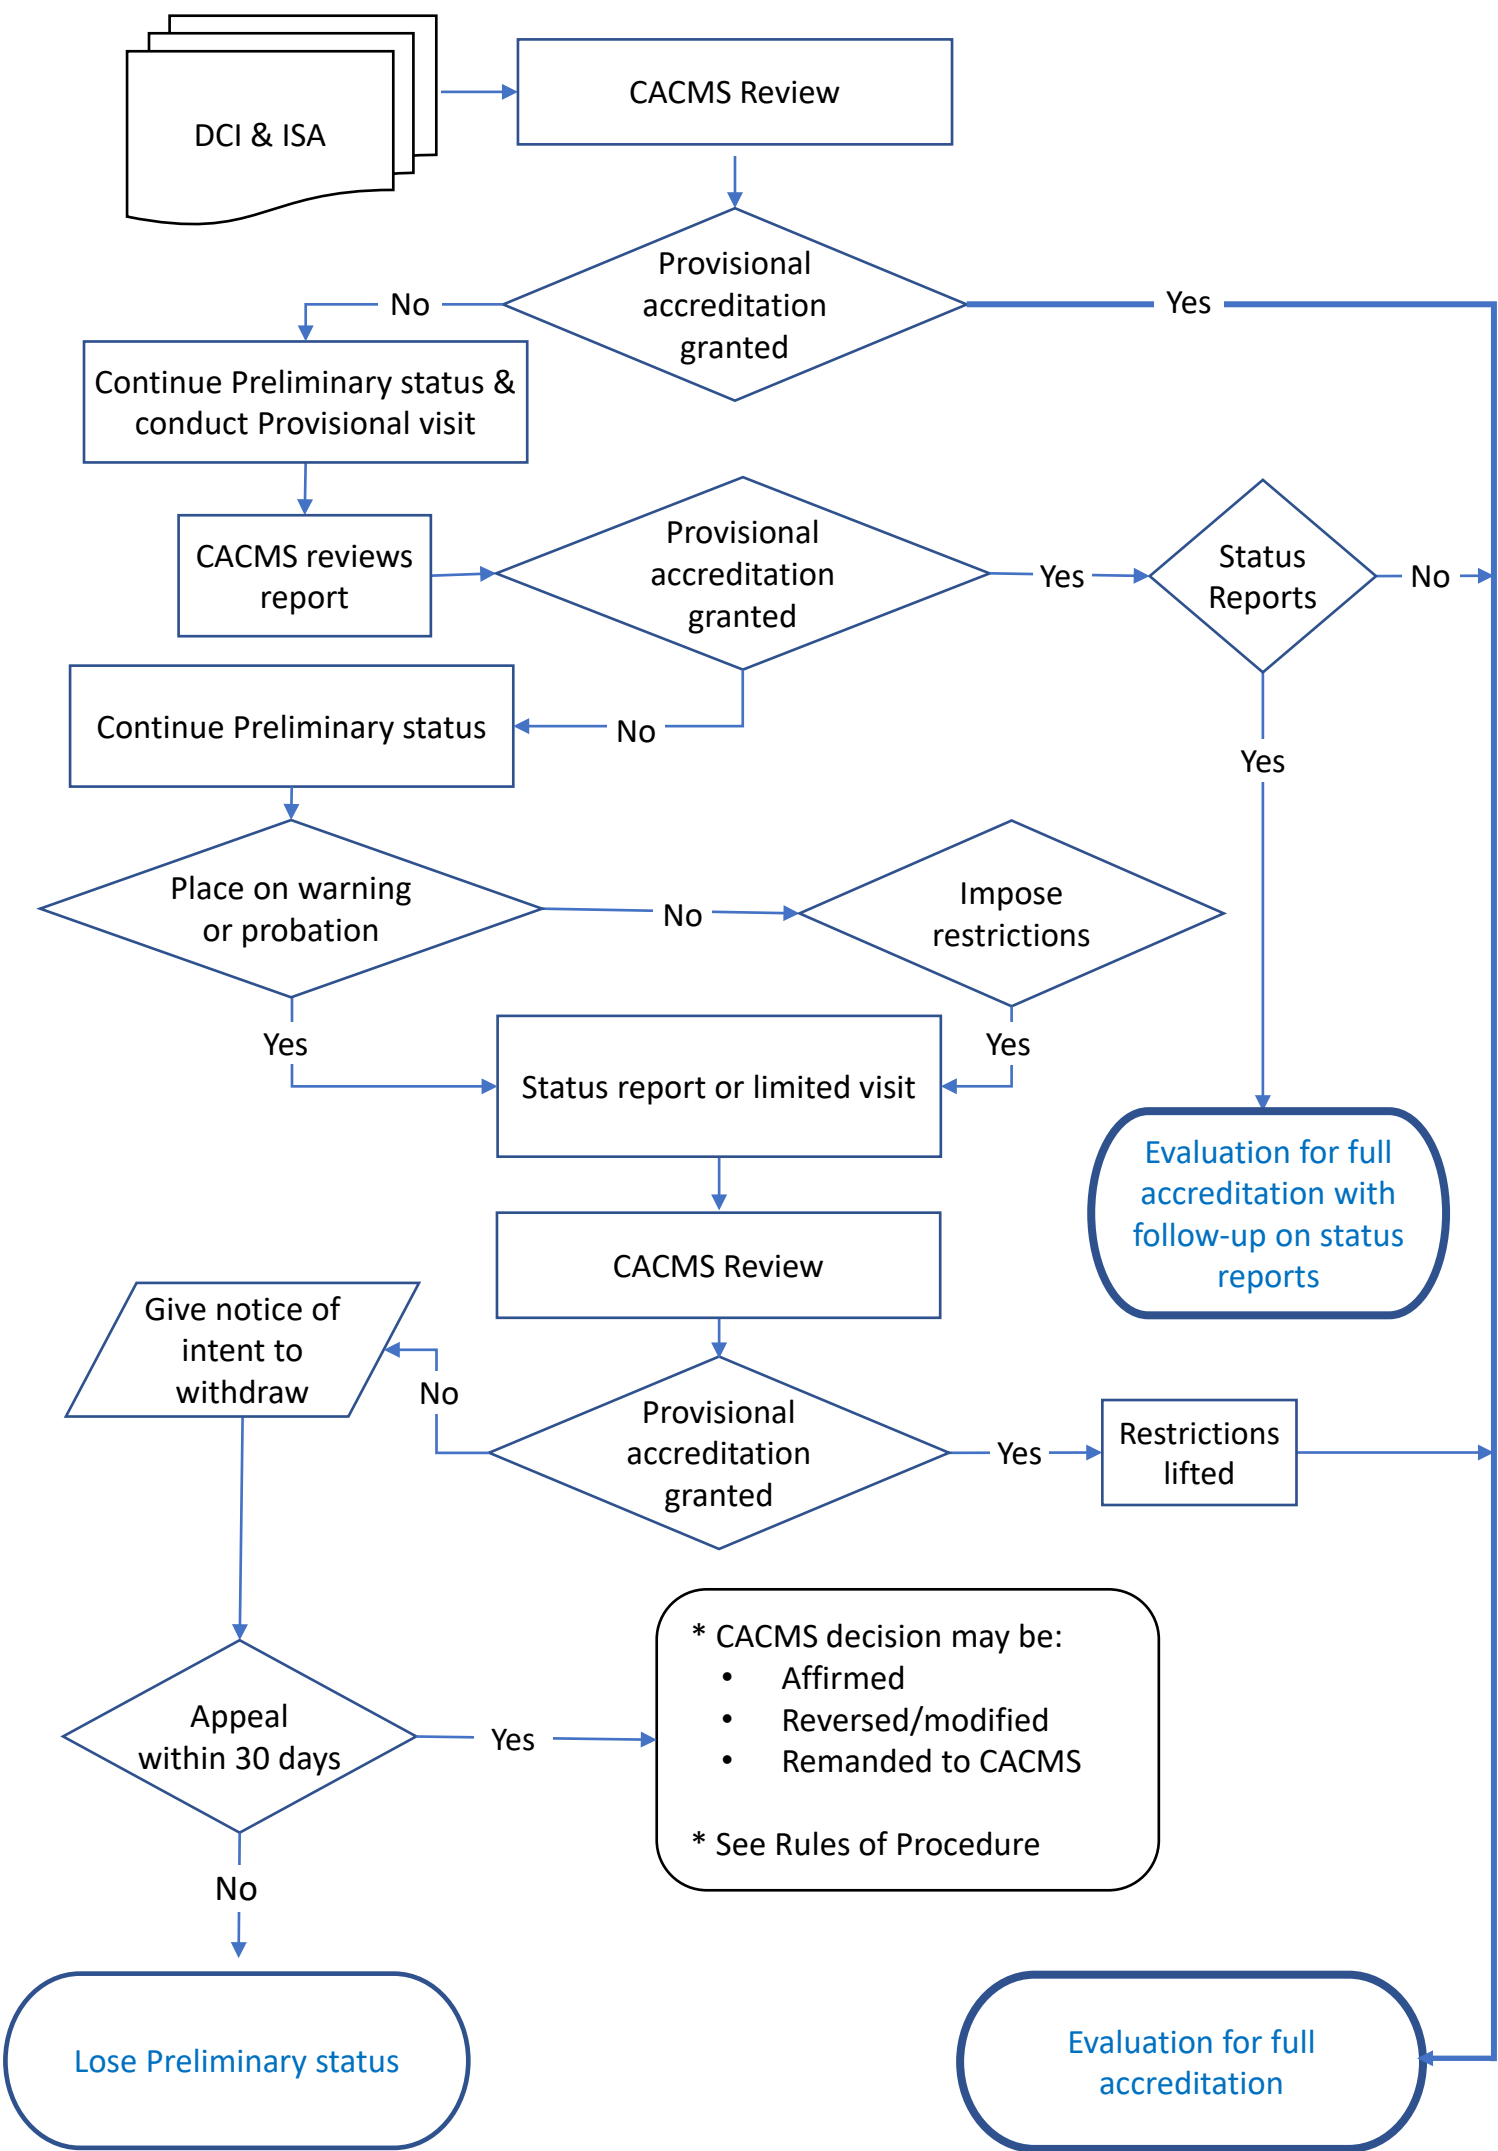

* Window for re-submission is between 12 & 18 months of date of denied candidate status

Candidate > Preliminary Accreditation

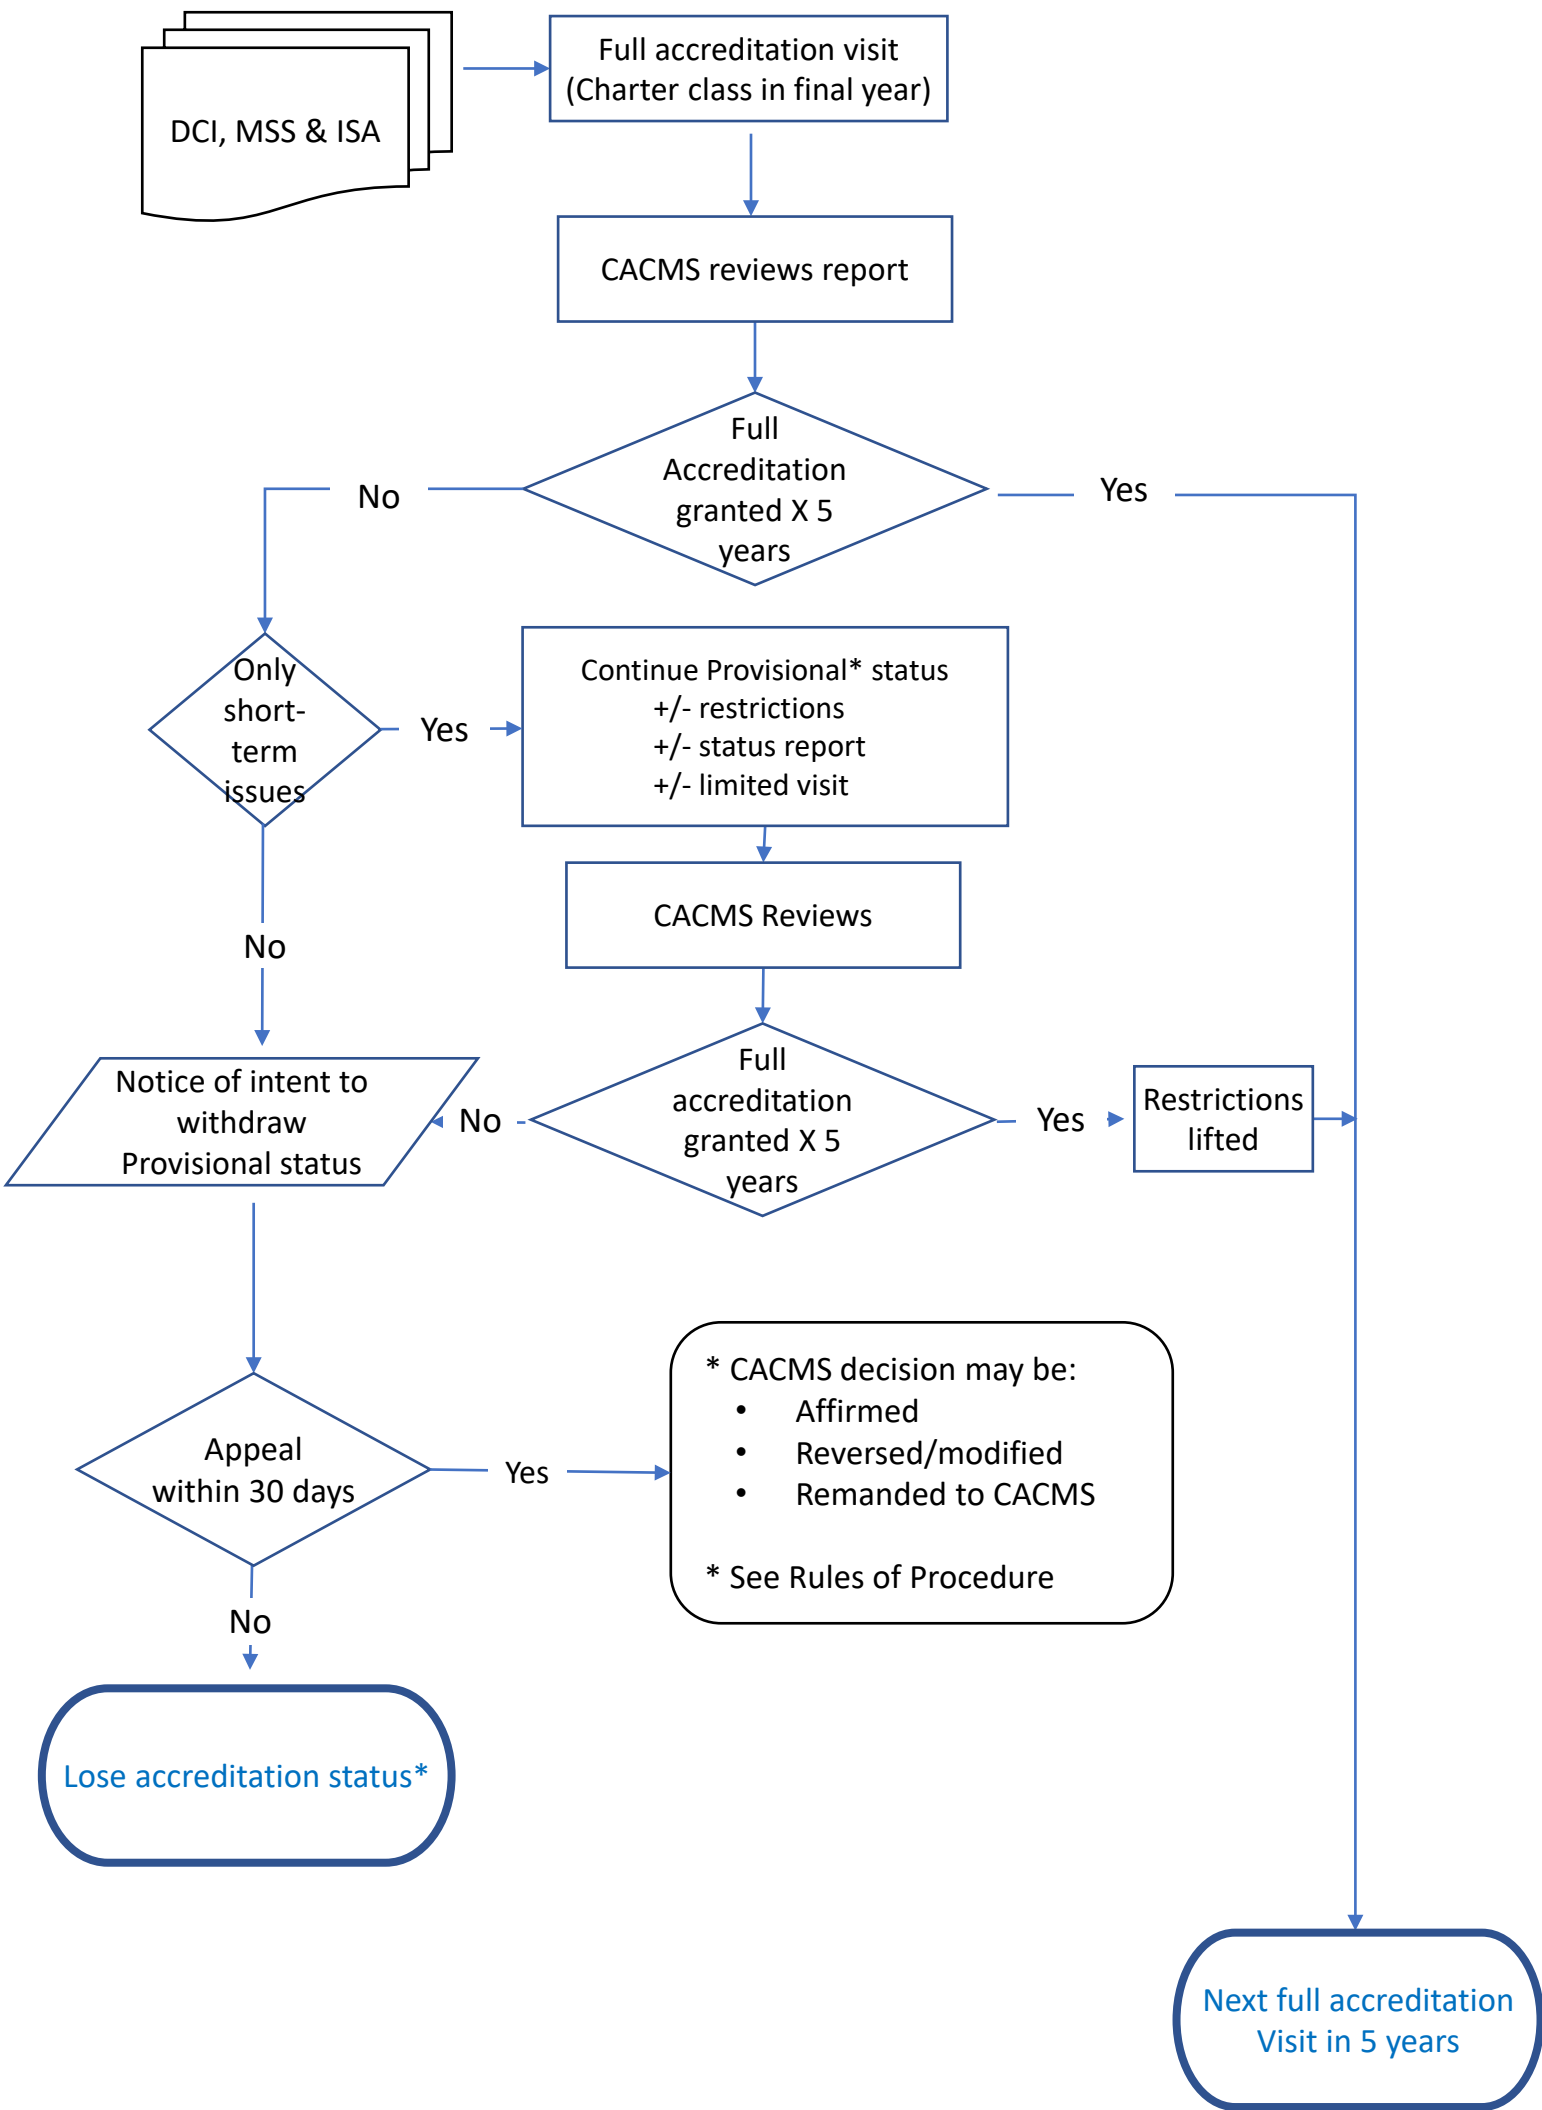

* If students are admitted after preliminary accreditation was denied, the program forfeits its eligibility for reapplication as a new program and cannot apply for CACMS accreditation until its medical educational program has graduated at least one class.

Preliminary > Provisional Accreditation

Note: Re-application for applicant status & new fees required (no sooner than 1 year from final withdrawal decision)

Provisional > Full Accreditation

* School must achieve Full Accreditation within 5 years of receiving Provisional status otherwise re-application and new fees are required
